Mining Stocks in New York New York, Sept. 16.—Closing quotations to-day mining stocks were as follows; Adams Con. S Little Chief...

Week's Bank Clearings. Clearings for the week were \$47,962,816, pared with \$44,929,982 last year. Clearin the day were \$6,863,999; balances \$678,678.

The number of shares sold rose to near a million on several days and the advance for the week has been quite comprehensive, but not very great. The movement has been at all times irregular and very heavy profit-taking has gone hand in hand with new buying.

But the tone of the market has been good throughout and the realizing was well taken and helped the way in many cases for fresh advances. By a series of shifting operations the whole list nearly has been included in the operations of the powers in control of the market and the sustaining influence of the market and the sustaining influence of the new points of strength has proved sufficient to enable the taking of profits elsewhere, without materially hurting the price level. The built of the business seemed to come from firms credited with operating for speculative combinations of large circlalists and the general commission-house business has been small and little public interest in the market has been reported.

The boardroom element has maintained a skeptical attitude toward the advance and has been constantly on the watch for its culmination and reaction. The short selling and later forced covering have been factors in the occasional halts and the later advices. Selling was conspicuously in evidence on Tuesday after the three days holiday, during which the bank statement was published, showing an abrupt change in the lone-extended rise in the surplus reserves of the banks.

New York Curb Market. REPUBLIC SPECIAL

-

t

REPUBLIC SPECIAL.

New York, Sept. 16.—The curb market furnished a sharp courrast to the tradine on the board-room floor. Bustness was quiet and there were no material changes in unless in any quarter. Interborough Rand Transit occured at 165 and advanced to 167 on trading of 505 shares, and Northern Securities held at 165k and 164k, with sales of 400 shares. American Tobacco common, when issued, sold at 250, and the preferred at 160, both sales being rande apparently for the purpose of fixing a valuation on these stocks. Havans Tobacco sold at 21.

Bar Silver. tew York, Sept. 10.—Bar silver 1640, endon, Eept. 10.—Bar eilver 2640, kets did not offset stimulating influence on stock. The iron and steel trade was a suc-cession of constant dissatisfaction and seemed to be interpreted in a sanguing month.

mood.

Deep cuts in various lines except steel rails were admittedly designed to stimulate languishing demand, and this belated policy proved puzzling in view of the August blast-furnace statistics showing an increase of 55,660 tons in the weekly capacity, with an accompanying reduction of 150,660 tons in the stocks on hand, but the reduction in profits involved in the tion of 19,99 tots in the stocks on hand. But the reduction in profits involved in the cuts was more than offset in the market estimation by the assurance of agreement on the schedule fixed and the avolutine of the threatened danger of an open market and destructive competition. Many rumors were also prevalent of large orders to be placed at the concessions in prices. Besief in a revival of the stock trade was an effective influence on the whole market. RAILWAY TRAFFIC.

Of similar general effect was the evidence of a growth in railroad traffic. Last week's grain movement was greatly expanded and officials of Western railroads asserted that the westward movement of merchandise showed a large growth, and merchandise showed a large growth, and augured a feeling of confidence in the mercantile community. The decision of the Pennsylvania to return to its full working time in its shops, with effect on 2009 workmen, was regarded as highly suggestive of better railroad conditions, and the New York Central's considerable increase in gross earnings for August was viewed in the same lient.

Gross earnings for August was viewed in the same lieft.

Gross earnings reported for the fourth week in August showed general increases over those of last year; but it is pointed out that the remnant of the month which figures as the fourth week contained only one Sunday this year, as against two last year, thus implying one more earning day this year than last.

The agreement arrived at over the wage dispute in the New York traction field and the formal abandonment of the meat strike helped the market.

MONEY MARKET.

There was slight hardening of the money

. There was slight hardening of the money market in response to the decline in the surplus reserves of the banks, the interior demands to be faced and the more active demand for money for speculative purposes in the stock market, But the larger proportions of the surplus rob this prospect of any terrors in the present

prospect of any terrors in the present speculative mood.

The growing depletion of the Government revenues has elicited the admission from Washington that a further call on national banks for Government deposits is a probability of the future; but the hope is expressed that this may be deferred until the period of crop-moving demand has passed.

The question is dependent, however, to an existence of the control of the cont

has passed.

The question is dependent, however, to an extent upon the point to which the Government's working balance may decline in the meantime.

The principal activity in the bond market has been in speculative issues and the tone has been irregular at times. United States 2s regular declined one-eighth of 1 per cent on call this week.

New York Stock Quotations. New York, Sept. 18 - Following are to-day's sales of stocks on the Stock Exchange, shiwing the highest and lowest quotations and closing bids:

High Records for Present

Movement.

New York Sept. 19.—As a result largely of further heavy profit-taking, stocks moved rather irregularly to-day, though the undertone was undenlably firm. The tendency of many issues was toward a higher level, Indeed, several of the more active issues, such as United States Steel preferred and common, touched new high records for the present movement.

Business for the brief session was unusually heavy, though not widely distributed. Southern Ratuvay was the feature and later St. Paid, Union racific, Atchison and other standard railway issues became very strong, but the activity was confined chiefy to the minor railway and industrial shares.

TOHACCO LITTLE AFFECTED.

The Tobacco issues were but little affected by the proposed merger, though some realizing followed the early advance in Consolidated Tobacco is. Metropolitan Securities, concerning which there were many new and improbable rumors, made an early gain, but closed practically unchanged.

**Lea market wavered slightly on the publication of the bank statement, which improve the submitted of the bank statement which improve the submitted states. The grand total of loans and denosits is now at the highest in the history of the Associated Banks.

Reports that the Government report of collection of the day was the heavings of Fuel was not accompanied by any specific news developments. Total sales of bonds were \$1.50 feel and \$1.50 fee

Provisions were easier. Selling by pit traders due to prospects of increased hog receipts was the chief reason for a small New York. Sept. 10.—The etatement of averages of the clearing-house banks of this city for the week shows: Loans \$1.29.

18.20, increase \$12.28.50; deposits \$1.20.

Estimated receipts for Monday are: Wheat, 74 cars; corn, 736 cars; oats, 150 cars; hoge, 22,000 head. CAUSED ARREST OF THE WOMAN WHO SAT ON HIM.

Philadelphia Man Charges Three-Hundred-Pound Neighbor With

nekel a big sign on the Post Office which here the following legend:

"Great Excitement! One of Dunellen's old matis has been captured."

Letters still continue to come to Portmaster Brakeley and Mayor Wyckoff. The Mayor has one which came from L. Hirt. of No 222 Suydam street. Brooklyn who asked to be "nut in communication with a nice, respectable girl of good family, not of extravagant habits or tastes."

HORSE THROUGH PLATE GLASS

Frightened at Automobile, Animal Makes Wild Dash.

REPUBLIC SPECIAL. New York, Sept. 10 .- A horse attached to a hansom cab belonging to Biward Sne'l. who has a stand in front of the Hotel Metropole, on Broadway, became frightened at a white automobile and its large headlight at Elighth avenue and Fiftyeighth street, and dashed through the plate glass window of a telegraph office at No. 83 Eighth avenue, cutting itself badly. Two well dressed women were in the office at the time, and they ran through a side door into the Port Jervis stables at No. 985, next door, where the horse was to have been stabled. A lot of sursts in Reisenweber's cafe and restaurant, next door on the other side, heard the crash and ran into the street.

The horse was recued from the broken and ran into the street.

The horse was rescued from the broken window, where he had half erashed through after the owner of the machine had moved it on down the street,

SUMMARY OF ST. LOUIS MARKETS!

Though little bullish news was in sight, wheat options railied in yesterday's marrhough little bullish news was it sight, wheat options railled by yesterials a har-ket after a rather weak opening. There was not much encouragement in the action of foreign markets. Reports of Spanish buying were offset by predictions that Rus-stan shipments for the week would be large. Weather conditions in the winter and spring belts were generally favorable, though there was some apprehension of a dropin temperature in the extreme Northwest. The market railled on strength in Minne-apolis, where there was said to be an increased buying demand for flour for shipment apoins, where there was said to be an increased buying definite for nour for suppliers and export. Trading was largely by sulpers. Big professionals and outsiders were inclined to await the posting of the Government report. Trading was in only fair volume, but there was sufficient bullish sentiment to inside the absorption of all offers and to establish a higher closing level for the active futures.

There was too much good weather in sight to keep corn on the upturn. Outside of low temperatures in the Northwest and light local receipts, there was nothing bullish in the news. Future values were moderately lower at the close, Dec. wheat opened the off and closed the up.

Dec. corn opened %c off and closed %c %p. Dec. oats closed %a%c off.

Receipts of produce were in moderate volume and prices of fruits and vegetables rere generally steady.

Local securities opened well, but eased. Only a portion of the early gains was

Yesterday's bank clearings were \$6,965,990, bulances \$570,670. Discount rates were Spot cotton was steady in the local market

LOCAL STOCKS EASIER ON MODERATE SELLING.

G00D.

Maintained There Is No Lack of Bullish Sentiment.

Local securities opened fairly well, but there was some liquidation, and initial the opening, but later there was a fairly prices were not well maintained. Only a good rally, and closing prices were on the portion of the early gains was lost, and the market was fairly firm at the close.

Reported by G. H. Walker & Co., No. 297 forth Fourth street; National Discutt com. ... **RAILROADED 51 YEARS**

WITHOUT BAD ACCIDENT

Pennsylvania Management Retire Mcholas Gilman After a Remarkable Service.

Columbia, Pa., Sept. 10.-Nicholas C. Gilman, the veteran engineer of the Pennsyl-vania Railroad, was placed on the retired list, having passed the age limit, and by virtue of long and continuous service h will also be placed on the pension list. On August 21 Mr. Gilman passed his sev entieth milestone, the limit for retirement. Of these years fifty-one were spent in the of these years fifty-one were spent in the railroad service. He served in every capacity from the rear end of a freight train to the front of a passenger train, and for more than thirty-six years he was the engineer of the train known as the Columbia accommodation, running between Columbin and Philadelphia.

During all these years Mr. Gilman never met with an accident that resulted in serious or Intal Injuries to his passengers or Limself.

GENERAL GRANT'S CIGAR CASE. His Military Secretary Has Pre-

served It for Years.

Cincinnati, Sept. 19.-Private Harmon Brown, one time military secretary to General Grant, has in his possession a cigar and a cigar case which General Grant carried over forty years ago. A package arrived at the General's head-quarters one day, and Brown opened it in the presence of Grant. In the top of the package was a box of choice cigars and with it was a fine cigar case.

Grant looked at both for a second and then said, with a smile: "Fill it, Brown." His military secretary filled the case with cigars from the box and handed them to the General. He started to put the case in his pocket, and found his own already there. Extracting the old case, which still contained one cigar, Grant handed them to his secretary, and said: "Take the case and have a smoke."

Brown took them, but instead of smoking the cigar carefully preserved both, He has them now at his home in Cheimati. As soon as the new museum in Cincinati is completed he intends to present the cigar and the case to it for safekeeping. Grant carried over forty years ago. A

HIDALGO RELICS MISSING.

Spanish Heirlooms in Family for More Than a Century. REPUBLIC SPECIAL.

Les Angeles, Cal., Sept. 10.—Priceless heirloom relics of the old hidalgo days of heirloom reiles of the old hidalgo days of California have disappeared from the home of Mrs. H. Van Derleck of No. 204 West Twenty-first street. Mrs. Van Derleck is a descendant of General Jose Sepuiveda, who in the old days was the grandee of the great San Josquin Rancho. The heirlooms came from this family.

Among other things stolen are two gorgeous fams of carved lvory and duchesse lace. They were immorted from France for the Sepuiveda ladies in the days before the "Gringo" came. Several shawls of rare value, old Spanish lace and heavily embrodiered cloth are also missing.

Some of the articles had been in the family for a century and a half and were horogist from Spain. Jewels, rings, gold necklaces of a design never successfully copied by modern goldsmiths, gorgeous old arms and a complete bridle made of heavy links of rolld silver are also reported stolen.
